

# Rain gages and weather data stations

 Rain gages and weather data stations

This map shows the locations of weather data stations (including rain gages) in southern Guam. The geospatial data were obtained from the National Water Information System (NWIS) database operated by the United States Geological Survey (USGS). The database is available online at (<http://maps.waterdata.usgs.gov/mapper/index.html?state=gu>). Coordinate information obtained was converted to a GIS shapefile.

Cartography and design  
 by Danko Taborosi  
 and Maria Kottermaier,  
 2015.

This map is for awareness and educational  
 purposes only. It contains no authoritative positional  
 or other information. See the full disclaimer at
