

## Bottomland soils

 Bottomland soils

This map offers a very simplified look at the soils of southern Guam. It shows only the extent of bottomland soils. It was derived from the detailed soil map published in the Soil Survey of the Territory of Guam (1985), by the USDA Soil Conservation Service (SCS, but now NRCS – Natural Resources Conservation Service) in cooperation with Guam Department of Commerce and University of Guam (UOG). This dataset was created by Island Research & Education Initiative for the purposes of this atlas.

Cartography and design  
by Danko Taborosi  
and Maria Kottermair,  
2015.

This map is for awareness and educational  
purposes only. It contains no authoritative positional  
or other information. See the full disclaimer at  
[www.south.hydroguam.net/disclaimer.html](http://www.south.hydroguam.net/disclaimer.html)

Created by the Water and Environmental Research Institute of the  
Western Pacific (WERI) and Island Research & Education Initiative (IREI)  
with funding from the Guam Hydrological Survey (GHS) and the  
Bureau of Statistics and Plans (BSP), Government of Guam.
