

USGS topographic map (DRG image)

This is a topographic map of southern Guam. The topographic maps of Guam were created by the United States Geological Survey (USGS) at 1:50,000 and 1:24,000 scales (also known as 7.5-minute quadrangles). They are available as scanned and georeferenced maps, generally referred to as Digital Raster Graphics (DRGs) and hard copy paper maps. The map used here is a DRG, which was digitally cut to show southern Guam only.

Cartography and design
by Danko Taborosi
and Maria Kottermaier,
2015.

This map is for awareness and educational
purposes only. It contains no authoritative positional
or other information. See the full disclaimer at
www.south.hydroguam.net/disclaimer.html

Created by the Water and Environmental Research Institute of the
Western Pacific (WERI) and Island Research & Education Initiative (IREI)
with funding from the Guam Hydrological Survey (GHS) and the
Bureau of Statistics and Plans (BSP), Government of Guam.
